

HOW WE WORK TOGETHER

We seek to partner with churches and Christian organizations from around the world to reach people in their native languages with online mentoring and engaging content.

We provide a digital evangelism opportunity and effective, qualitative online discipleship training that equips your congregants or volunteers with active listening skills to interact with empathy towards others (<https://issuesiface.com>).

Most people don't feel comfortable stepping through church doors right away. That's why we want to equip and train people in the church to be able to have spiritual conversations and share their faith in a natural way online, across the street and around the world.

This presents a unique and wonderful opportunity! Trained mentors listen compassionately and prayerfully bridge the conversation to the individual's need for Christ.

Many of our mentors lead someone to Christ for the very first time through this ministry. Imagine

your church members or ministry engaging with people in their struggles, pointing the way to Jesus, and helping them find a church to call home!

TESTIMONIES

“I'm so grateful to see a shift in perspective among my congregation. They're understanding that they can embody the Great Commission at home, right where they are. Most importantly, though, they're being challenged to trust the Holy Spirit to change lives through their simple actions of praying and sending a message online.”

- Ministry Leader

“This is a wonderful ministry, and I have learned and gained so much valuable experience here, for which I am very grateful and thankful. I have begun to be more involved in our church's local Gospel outreach ministry on a regular basis.”

- Online Mentor

“Over the last two years, through my online mentor, God has been speaking to me, answering me and comforting me. I am so encouraged by God's work in my life. I am excited to now begin mentoring others too! I was lost, sad, angry and scared before my real conversion to Christ in 2022. Since then, I have found peace even when the storm comes. I find calm and quietude in Jesus.”

THE MENTOR MINISTRY

tmm.io

Are your small groups being effective disciple-makers? How can your church community make a difference in our digitalized world?

Because the world is online, it has never been easier for Christians seeking to grow spiritually to get involved with The Great Commission through online mentoring.

People are searching for hope and purpose online. We have the opportunity to **meet them where they are and share the hope of Jesus.**

OUR VISION

P2C Digital Strategies mobilizes Christ-followers to help fulfill the Great Commission online. Our dream is that every Christian in every church and ministry would have the digital tools and resources they need to start meaningful conversations about their faith in Jesus, and confidently share the Gospel with seekers online, across the street, and around the world.

REACHING SEEKERS ONLINE FOR OVER 25 YEARS

P2C Digital Strategies began with a digital magazine for reaching women (Women Today), then it evolved into designing websites for the global media campaigns that Power to Change ran in 1999. As a result our inboxes were flooded with emails. Since then, we have adapted our strategies so we can reach people with the Gospel wherever they are online—on websites, social media groups, and live chat.

Today, our Digital Strategies team has over 40 staff and associates and between 600-700 active volunteers sharing the love of Jesus from all over the world. We've been involved in organization-led strategies, like the Passion of the Christ movie follow-up, and with several church planting strategies across South Asia in partnership with the Christian and Missionary Alliance. But the harvest is even greater so we still need more workers!

THE SPIRITUAL JOURNEY

This image helps us keep track of a mentee's and mentor's progress in TMM.io. It also helps us understand that most people come to Christ in a gradual way and have differing needs depending on where they are at in their journey. It also guides us in creating and curating resources and content.
